The Director of Central Intelligence
Washington, D C 20505

25X1

Critical Intelligence Problems Committee

DCI/ICS 86-3745
10 June 1986

MEMORANDUM FOR: Members, NFIP Support to Contingency Operations Working Group

FROM: Chairman
NFIP Support to Contingency Operations Working Group
Critical Intelligence Problems Committee

SUBJECT: Study Outline and Request for Inputs []

25X1

1. Attached is the latest version of the study outline that would create a report which focuses only on issues and problem areas. Of particular importance is whether there are other key issues that needs to be addressed beyond those listed. []

25X1

2. I would like to prepare an initial draft report based on the accepted outline by the latter part of July, which would give the working group about three weeks to coordinate on the draft. To meet this deadline, we will need to start putting pen to paper now. Therefore, with the draft outline in mind, I am requesting an input from each member that addresses the following:

- How elements within your organization now provide support to the military in various stages associated with contingency operations--planning, execution, and after action.
- How elements within your organization coordinate that support with other members of the Intelligence Community.
- Plans or future programs of your organization, to include R&D efforts, that will impact on providing support.
- Areas where you think improvements are needed and actions you would recommend to make improvements or correct deficiencies.

Additionally, inputs addressing any of the issues raised in the outline would be most welcome. []
